

SERVICE PROGRAMS

Preventative maintenance will make a difference to the success of your planting season.

METER SERVICE \$35

Your eSet or Finger meters are tested on our MeterMax Ultra test stand. Cleaned, repaired and calibrated to the seed you plant. Additional charge for repaired or replacement parts.

Note: For meters delivered after Feb. 15th there will be an additional \$10 per meter service charge.

SPEEDTUBE SERVICE \$25

Our SpeedTube service includes cleaning, inspecting, and testing of all your units. Additional charge for repaired or replacement parts.

vAPPLY HD BASIC SERVICE \$20

Units are ran on our test stand to verify that they are functional and then filled with fresh RV Antifreeze. Additional charge for repaired or replacement parts.

Note: For vApplyHDs ran after March 1st there will be an additional \$5 per vApply charge.

vAPPLY HD COMPLETE SERVICE \$40

We will take your units right from the planter to our shop by September 31st to participate in this service. We will clean, inspect, test, and fill with RV Antifreeze. If needed, we will store units over winter. Additional charge for repaired or replacement parts.
